

## OVERVIEW OF REVISIONS TO COLLABORATIVE STAGING in Version 01.02.00

ID #	TYPE OF REVISION																																
1-18,20-27	1) Added new note 4 to CS Lymph Nodes and “Supraclavicular, NOS” to code 12.																																
29-30,32-41	2) Added new note to CS Mets at Dx and removed “Supraclavicular (transverse cervical)																																
45-60	from code 10.																																
	<b>Note:</b> Data collectors may choose to review code 10 in CS Mets at Dx for references to involved supraclavicular lymph nodes and recode those cases to CS Lymph Nodes code 12. Refer to specific instructions by the various standard setting organizations.																																
	These changes were made to the following schemas:																																
	<table border="0" style="width: 100%;"> <tr> <td style="width: 50%;">Lip Upper</td> <td style="width: 50%;">Oropharynx</td> </tr> <tr> <td>Lip Lower</td> <td>Anterior Epiglottis*</td> </tr> <tr> <td>Other Lip</td> <td>Nasopharynx*</td> </tr> <tr> <td>Base Tongue</td> <td>Hypopharynx</td> </tr> <tr> <td>Anterior Tongue</td> <td>Other Pharynx</td> </tr> <tr> <td>Gum Upper</td> <td>Nasal Cavity*</td> </tr> <tr> <td>Gum Lower</td> <td>Middle Ear*</td> </tr> <tr> <td>Other Gum</td> <td>Maxillary Sinus*</td> </tr> <tr> <td>Floor of Mouth</td> <td>Ethmoid Sinus*</td> </tr> <tr> <td>Hard Palate</td> <td>Other Sinus*</td> </tr> <tr> <td>Soft Palate</td> <td>Glottic Larynx</td> </tr> <tr> <td>Other Mouth</td> <td>Supraglottic Larynx</td> </tr> <tr> <td>Buccal Mucosa</td> <td>Subglottic Larynx</td> </tr> <tr> <td>Parotid Gland</td> <td>Other Larynx</td> </tr> <tr> <td>Submandibular Gland</td> <td></td> </tr> <tr> <td>Other Salivary</td> <td></td> </tr> </table>	Lip Upper	Oropharynx	Lip Lower	Anterior Epiglottis*	Other Lip	Nasopharynx*	Base Tongue	Hypopharynx	Anterior Tongue	Other Pharynx	Gum Upper	Nasal Cavity*	Gum Lower	Middle Ear*	Other Gum	Maxillary Sinus*	Floor of Mouth	Ethmoid Sinus*	Hard Palate	Other Sinus*	Soft Palate	Glottic Larynx	Other Mouth	Supraglottic Larynx	Buccal Mucosa	Subglottic Larynx	Parotid Gland	Other Larynx	Submandibular Gland		Other Salivary	
Lip Upper	Oropharynx																																
Lip Lower	Anterior Epiglottis*																																
Other Lip	Nasopharynx*																																
Base Tongue	Hypopharynx																																
Anterior Tongue	Other Pharynx																																
Gum Upper	Nasal Cavity*																																
Gum Lower	Middle Ear*																																
Other Gum	Maxillary Sinus*																																
Floor of Mouth	Ethmoid Sinus*																																
Hard Palate	Other Sinus*																																
Soft Palate	Glottic Larynx																																
Other Mouth	Supraglottic Larynx																																
Buccal Mucosa	Subglottic Larynx																																
Parotid Gland	Other Larynx																																
Submandibular Gland																																	
Other Salivary																																	
	* Changes only to CS Lymph Nodes; CS Mets at Dx OK as printed																																

ID #	TYPE OF REVISION
68, 72-74, 78, 80, 81, 85-86, 88-89, 105-107, 114, 122-148, 154, 158, 163-165, 167, 183-184, 186	New codes and/or revised descriptions (lung, breast, melanoma, prostate, testis, renal pelvis, melanoma choroid, other endocrine, thyroid)
69, 70, 77, 98-101, 108, 149-153, 155, 170, 173-176	New notes and clarifications (lung, melanoma, prostate, testis, thyroid)
79, 102-104, 109-111, 115-121, 159, 162, 171-172, 177-182, 185	Codes made obsolete (melanoma, prostate, renal pelvis, melanoma eye, thyroid)
28, 31, 61, 62, 67, 76, 112-113, 168-169	Changes in TNM or Summary Stage mapping only (no changes to codes or descriptions) (parotid gland, submandibular gland, gallbladder, other biliary, lung, melanoma, prostate, brain, other CNS)
42-44, 64-66, 71, 75, 82, 83, 84, 87, 90-97, 156-157, 160-161, 166, 187-194	Changes to extra table: on CS (hypopharynx, stomach, colon, rectum, pancreas head, pancreas body and tail, other pancreas, lung, bone, melanoma, soft tissue, heart-mediastinum, kidney, retinoblastoma, lacrimal gland, skin eyelid, orbit, peritoneum, ovary, cervix, vulva, testis)
